“Where the mind is without fear
and the head is held high;
Where knowledge is free;
Where the world has not been broken up
into fragments by narrow domestic walls ...”

RABINDRA NATH TAGORE

The seed of success lies in the development of basic human character in child. The characteristics that define his personality and create a fuller human being in him. They have - command over Communication and Mental strength, Sportsmanship and Team Spirit, keenness to learn and experiment, an ability to appreciate various arts and a tendency to acquire further knowledge in various sciences or arts to make a living in addition to this, an attractive personality and knowledge of social etiquettes further enhances his chances of success in today's world. To achieve this end, Khudiram Bose Central College under the able guidance of the governing body of the College has created a comprehensive infrastructure and has combined it with an environment conducive to the development of each area of child's persona, with an objective of creating a scientific attitude, a creative bent of mind and a sensitive human being in him/her.

Special thanks to

Sri Asok Chaudhuri

President, Governing Body for his blessings, support, guidance and affection.

Principal's Address

Dr. Subir Kumar Datta
Principal

Khandiram Bose Central College (Earlier Central College) has completed 125 years of its existence. This is indeed a special occasion in the long span of an institution that began its career in the last decade of 19th century and is now striving to reach new heights in the era of globalization, which allows education of private institutions besides government or semi-government institutions. The college since its inception made some remarkable contribution to the society for the purpose of freedom fighting movement of the country. Now we have a rich past, a glorious present and a bright future. Khandiram Bose Central College is marching ahead with its motto of self-reliance and providing quality education to all irrespective of caste, creed, religion, economic status or physical health. In order to fulfill this objective, many developmental programmes were initiated during the preceding years keeping in tune with the changing scenario of education. We believe in academic excellence of students and our teachers are well-versed in the latest teaching methodologies to facilitate the students through their three years of undergraduate learning. The various departments of the college arrange different seminars where subject experts come and interactive sessions are held. Even few departments of the college arrange student seminars and student classroom presentations in order to boost-up their confidence level and personality development. The teachers do enhance the interest of their students not only make classroom teaching interesting but also plan outdoor programmes like educational tours. I would also like to highlight the fact that we take into consideration the requirement of students beyond the scope of the syllabus. The Career and Placement Cell and The Entry into Services Cell of the College play an active role in ensuring the students and making them familiar with jobs and career advancement through various training, workshops and campus interviews. Different institutions, reputed companies and expert resource persons come to the college and have a free interaction with the students. The members of the college office are always ready to extend their help to the students. The central library of the college is well-equipped with large number of books and journals for the use of students. There is a big reading room where students can sit and study. Besides, almost all departments of the college also have their own library wherefrom the students are also benefited. The college is also very much concerned about security of the students. Fire security device and CCTV have been installed in different parts of the college. The college is not only keen about academic performance of a student but is also dedicated to ensure development of the human qualities of a student. Service to society is not only enhanced but diligently and religiously practiced in this college. The NCC and NSS units of this college cater to this objective. Students learn to shoulder responsibility through community service and this helps them to grow as members of the society. Apart from academics, Sports is another area where the college ensures maximum students participation. The students under the efficient sports committee of the college not only participate but also secure winners and runners-up trophy in various competitions held at university, district, state and national levels. The college is also the study centre of Post-Graduate courses under Directorate of Distance Education of Vidyasagar University.

It is worthwhile to mention that in the year 2013, the college celebrated the closing ceremony of 150th Birth Anniversary of Swami Vivekananda. On this occasion the college organised a seminar and published a book entitled *Bigyan Bhabnei Swami Vivekananda*. The inspiring thoughts of the preceptor of modern spiritual renaissance are more relevant today than ever before. His electrifying message of the divinity of man for peace and harmony emerges out of his own realisation. Though the task is still to be achieved, I feel proud to say that the success rate of the students is on the rise. With all the excitement very happy beginning of their Career.

PRINCIPAL KHUDIRAM BOSE (1853- 1929)

Founder of This College

Principal Khudiram Bose, the founder of Central College and School, was born on 12 May, 1853, at Sadipur village at Burdwan district in West Bengal. He was born to Late Gorachand Bose and Late Nistarini Bose. He came of a middle class family and hence had to fight against poverty in his student days. He read in Bangla Pathshala of his village. He also studied at Tamuk Hamilton High School and at Free Church Institution (Du College). He was influenced by three sons of Bengal: Revolutionary Kalicharan Banerjee helped him to develop his faculties of reason; Brahmananda Keshab Chandra Sen moulded his religious beliefs and infused in him a sense of love for truth, and Pandit Iswar Chandra Vidyasagar showed him the path of self reliance. These human qualities were reflected in the thoughts and actions of our founder.

Principal Bose along with Rastraguru Surendranath served as the senior Professor of Mental and Moral Science and Logic in Metropolitan Institution (now Vidyasagar College) under Pandit Iswar Chandra Vidyasagar. On the death of Vidyasagar, Khudiram Bose founded the Universal Institution (Central Institution) on 3rd June, 1893. Inspired by the spirit of self reliance, our founder rejected any extraneous financial help for the sustenance of the institution. The college was founded in 1894.

Our founder was a man of independent spirit. Those were the days of Boycott and Swadeshi movements. It was not easy to conduct meetings without defying the British Government. Our founder allowed his college building to be used for this purpose. He allowed his pupil, Acharya P.C. Roy, to conduct Swadeshi Exhibition in his college. Central College was the place for freedom fighters Bagha Jatin (also an alumni of the institution), Baidyanath Biswas, Nirmalkanti Roy and others. Central College compound was the place for Rakhi Bandhan Ceremony. Our founder was one of the founder members of the Council of the National University, established with a national spirit after the movement against partition of Bengal in 1905. A man of towering personality, Khudiram Bose was an untiring worker throughout his life.

He identified himself with this institution and worked for it till the time of his death. He passed away on 15 December, 1929. "...his life was one of the strenuous exertion and ceaseless fight for the good cause which he had taken up.

Professor Tarak Nath Sen, an illustrious teacher of English, who taught at Presidency College (now Presidency University) said, The Late Principal Khudiram Bose, founder of the institution, belonged to a generation, now past, of large hearted men who lived after large ideals. The lessons he had learnt in the conduct of life from the great Pandit Iswar Chandra Vidyasagar, he applied to a noble social use in founding of this institution in 1893. Every year on 15 December (Founder's Death Anniversary Day), the college pays tribute by observing Khudiram Bose Memorial Lecture. On this occasion the Annual Prize Distribution of the college also takes place.

ABOUT THE COLLEGE

Location of the College:

Khudiram Bose Central College is situated on Bidhan Sarani. It is between Bethune College and Scottish Church School. As the college is located on the main road, the students of this college enjoy quick availability of transport to any part of the city. Another conveyance the students enjoy is the easy access to Metro Station and Bidhan Nagar Railway Station.

CU Affiliation:

Khudiram Bose Central College is affiliated to University of Calcutta.

UGC Affiliation:

The college has received UGC affiliation under section 2F and 12B of the UGC Act in 1965. Due to this the college has become eligible to receive central assistance and grants for further development.

College Hours:

Classes are held from 9.30 a.m. to 4.45 p.m. Office is open from 10.00 a.m. to 4.00 p.m. The College Library is open during the college hours.

Academic Session:

The academic session of the college is from July to June of next year. Classes for 1st year begin as per CU norms. Classes for 2nd and 3rd Year begin as per CU rules, within one week of the completion of theoretical examination under Calcutta University. Students of 2nd and 3rd Year have to take provisional admission before their classes begin.

Aims and Objectives:

The college always keeps in focus its motto self reliance. Every effort is taken by all the members of this college to enhance quality. The basic aim of our college is to provide the students with a need to face challenges in the job market. Every effort is taken to provide career guidance to the students. However, in its stride to equip the students with a sound career the college also builds humane consciousness in the students.

TEACHING METHODOLOGY

The teachers of this college take a deep interest in the academic orientation of the students. The basic objective behind teaching methodology is to maximise student performance. The teachers strictly follow the academic calendar prepared by them at the beginning of each academic year. There is a very healthy co-ordination between the teachers and the students and this facilitates learning. Another major advantage that helps the students is teacher accessibility beyond the boundary of the classroom - - the students are most welcome to come to the teachers any time, within the college hours, with their problems.

The teachers of this college gives priority to update its students by collecting data and information from internet and also insists the students to browse important internet sites related to their studies. Besides the teachers also have adopted following modern methods of making the classroom teaching more interesting and interactive. The methods are as follows:

Audio- Visual Presentation:

In order to make the learning process more interesting and interactive the classes are often conducted by the projector. For example, the department of History in the last academic session started a new process of learning by making their students presentation with the help of projector. Their theme was "A Journey Through the Ages" The classes of the department of Journalism and Mass Communication , Geography and IT part of Commerce are also being conducted with the help of computers. These departments have separate computer laboratories.

Educational Tours:

As per CU norms the Geography department of the college conducts an excursion tours every year for their students as part of their course requirement. But the department of Political Science and Education also started conducting educational tours since 2012. Last academic session, the department of History visited **Indian Museum** as part of educational tour. The department of English visited **Birla Museum and Technology**. The department of Political Science visited **Bidhan Sabha** and the department was joined by JMC, Hindi and Education departments of the college. Also another educational tour was jointly conducted by the department of Journalism and Mass Communication and Political Science to Birla Museum. Apart from Geography, these tours are sometimes totally financially supported by college and sometimes they are self-financed tours by the departments.

Inter departmental Programmes:

In order to enrich the campus life and develop quality teaching among the students, the departments like Journalism and Mass Communication and Political Science organised last year an extension lecture on Communication Theory . The lecture was delivered by Prof. Sourav Gupta, Koratput

University, Odisha. Besides the educational tours are also glaring examples of inter departmental networking and collaborative programmes and provides the scope of knowing each other well and thereby building a sense of community participation among them.

Film Screening:

Another new mode of teaching adopted by few departments of the college is to show films to the students relevant and based on the theme related to their course. For example, the department of English organises Classic English Movies; the department of JMC prepares and shows documentary and shortfilms. Last academic session the department of Political Science organised a film screening Madras Café for their students. This movie was also watched by the different departments of the college. In showing the movie, the JMC department assisted the Political Science department. Another example of inter departmental programmes.

Dramatised Version of Teaching:

The department of Hindi has adopted new process of teaching and learning in the way of drama enactment on a piece or novel based on and from their syllabus. For example, in recent past a drama was enacted by the department students on the piece named "Bholaram ka Jeev". The drama was enacted on the occasion of Swami Vivekananda's 150th Birth Anniversary Programme.

Wall Magazine:

These magazines are for students. The students are assisted and insisted by the teachers to enhance their creative mind and talents in form of these magazines where they are required to search materials from internet, showcase thought provoking write-ups and information. Different department have their own wall magazines. The names of the wall magazines are as follows:

Department of Education — EDUCATUM

Department of Political Science — AGRADUT

Department of Journalism & Mass Comm. — DIGANTA

Department of Commerce — SAPTAPARNI

Department of Bengali — BANGLA BIBHAGIO PATRIKA

Department of History — UTTARAN

Department of Hindi — ABHIVYAKTI

Department of English — CHOKHER ALOE VISION BEYOND

(Since 2010, it started publishing its own departmental magazine in which not only English departments but also other departments are welcome to contribute to this magazine.)

SEMINARS AND WORKSHOPS

Seminars are organised in the college and the students have a very positive role in organization of such seminars and workshops. These seminars and workshops are conducted by different departments of the college and experts from different universities, colleges and also other sectors are invited so that students get an exposure in diverse areas of their subject. Seminars within the departments are also held where students present papers before the whole class. These intra departmental seminars are arranged by the concerned departments so that the students learn how to do research work. Apart from seminars and workshops teacher exchange programmes are arranged by different departments. Teachers from other colleges come occasionally to take classes and vice versa. This gives the students an opportunity to know the teaching strategy practiced in other colleges.

In the recent past the following seminars and workshops were held in the college:

- ⇒ Department of History organised a Two days State Level Seminar sponsored by UGC on Historical Consciousness in Late Nineteenth and Early Twentieth Century Bengal: Some Reactions.

PATTERN OF EVALUATION

- Students with honours and in the general course sit for examination at the end of each year for three years.
- The College follows evaluation pattern as stated by Calcutta University.
- As per C.U. norms the College conducts two tests for all the three years. The Mid Term Test is held generally in early November. The College Test for third year students is held in January. The second year Students will sit for College Test in February and the first year students will appear for College test in March.
- All papers (Hons. & Elective) for both Mid Term and College Test will be of 100 marks. However, Compulsory English, MIL will be 50 marks each. ENVS of 100 marks will be evaluated in the third year.
- If the college has to arrange supplementary college test it will only be done against payment of fine of Rs. 300/-
- It is mandatory that students appear in both the exams, failing which they will not be allowed to sit for C.U. exam.
- It is discretion of Calcutta University to change the syllabus and the pattern of evaluation. Students will be notified well in advance about any change with regard to syllabus evaluation.
- The teachers also give class tests and assignment as and when they think these necessary. Tests throughout the academic year help the students to prepare themselves better. The evaluation process further facilitates the teacher to measure the level of student's performance and thereby guarantee his/her success in C.U. exam

RULES AND REGULATIONS

Attendance

- The minimum percentage for appearing as a collegiate student in the CU exam is 75% of total number of classes held in that academic session.
- Students must ensure that they have acquired the required percentage of attendance. Calcutta University may condone shortage of percentage, but not less than 60% on payment of a fee, to the University in special cases. The college is very particular about the attendance percentage and expects students to attend classes.
- Students who do not have the required attendance will not be allowed to sit for Mid-term Test and College test.
- In any case if student fails to attend classes for seven days continuously without any information to the college, his name will be cancelled and college may take appropriate actions.
- In case of medical emergency if any student does not attend classes regularly the student or the guardian is liable to inform or provide necessary document to the college at the time of his / her illness. Further such medical documents will be entertained.
- After every three months, attendance record of the students are published and if any students are asked to bring his/her guardian due to short percentage and if he / she does not do so, his/her name will be cancelled and college authority may take strict action.

Library

- The College library is open during the College hours.
- Books are issued for ten days and may be re-issued for another ten days, if there is no demand. A fine of 50 paise per book per day has to be paid if there is any delay in returning books after time period is over.
- Cases of mutilation if any, must be brought immediately to the notice of the Librarian otherwise the borrower will be held responsible.
- Library deposit will be refunded only if books are returned in good condition.
- Loss of library card must be informed immediately to the Librarian and a duplicate card will be issued against a formal application and fine of Rs. 10/- only.
- Students have to take Library Clearance Certificate from the library before filling up their University examination forms. This Certificate will be issued only after books are returned to the library and library cards deposited.
- Library Card is non-transferable.

Important Information

- Bus and tram fare Concession are always arranged in eligible cases.
- Railway concessions are always granted both for home going and seasonal tickets.
- Concessions including free and half free studentship are always considered on the basis of merit.
- All enquires should be made in the College Office and not directly to the Principal.
- Students must take care not to damage College property and shall not paste posters in classrooms, office library and interior walls of College building.
- For breach of discipline or misconduct within or outside the precincts of the College, the Principal may take any necessary disciplinary measure against any student, including forced transfer.
