An insight about the Webinar :

Corporate Financial Accounting & Reporting is an indispensable responsibility of the corporate to satisfy the information needs of the users of financial statements. It helps the investors, moneylenders, management, creditors etc. for taking financial as well as other decisions. It also helps in tax computation and Auditing of financial statements. The accounting and reporting is done following the mandates of ICAI and MCA from time to time in the form of IND AS or converge IFRS. In general the primary objectives of Corporate Financial Accounting & Reporting is to provide Capital Market Participants a good enough information for their financial decision making. The reporting should be such that it can be easy accessible by all the indigenous users as well as foreign users. We may hope that we will be enriched a lot about the different aspects of Corporate Financial Accounting & Reporting out of this webinar and we will get some suggestions and ideas regarding the way ahead for the corporate in the field of accounting and reporting.
